

America at Work: Manufacturing Hires by State

Thousands of workers moved into manufacturing jobs across the United States in the first quarter of 2023. This map shows hiring patterns and how manufacturing continues to be a leading contributor of employment whether in the industrial Midwest, the South's production hubs, or manufacturing centers nationwide.

Explore where your state ranks and see how manufacturing is shaping America's workforce at <https://j2jexplorer.ces.census.gov/explore.html#1738727>. Dive deeper into the data and create your own analysis using the [Job-to-Job Explorer](#).
