

Population Growth Slows

Average Percent Change for Cities and Towns
by Size and Region

Note: Values are rounded. Bars may appear different in length due to underlying unrounded values. Size categories are defined as Small (0-4,999), Medium (5,000-49,999), Large (50,000-249,999), and Largest (250,000+). Values show the average percent population change across incorporated places by region, grouped by population size as of July 1, 2023.
